[MSIB # 14-10]

May 7, 2010

GULF OF MEXICO CLEAN-UP OPERATIONS CONTINUE

While environmental clean-up operations continue in the Gulf of Mexico, the movement of oil spill response resources to the Gulf of Mexico is expected to continue. I recommend that facility and vessel owners and operators review NVIC 01-17 for additional guidance on vessel and facility response plans, in relation to Oil Spill Removal Organization (OSRO) resource movements during significant pollution events, found at the following internet link:
